**The "Top 10" Cars for 1998 (20 Years ago....now a classic!)**

**No. 3—July 2018**

*From CarandDriverCom—*

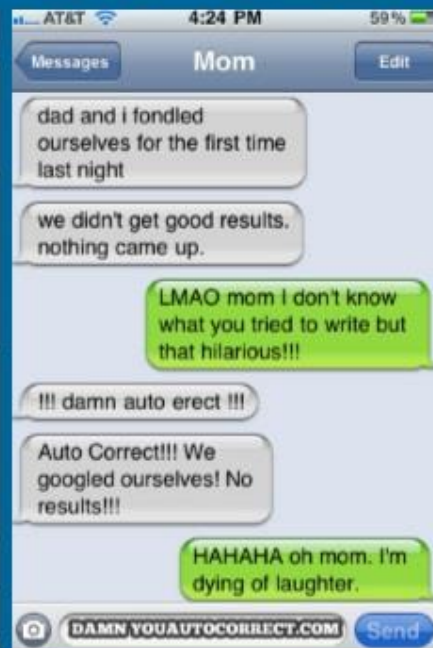

**1998**

*That car you bought in 1997 is now a classic. 1998 models are now 20 YEARS OLD. So, we thought it would be fun to look at the TOP 10 CARS (from Car & Driver) for 1998.*

**#3—1998 Acura "NSX":**

This car changed the supercar game. It used to be assumed that supercars were high strung and required a ton of maintenance and repair, but then Honda made this brilliant car that could keep pace with anything from Italy and was truly reliable; not reliable for a supercar either, just straight up reliable.

**Texting Jokes of the Month**

"Barn Find" is a regular feature of the monthly newsletter (from Page 1)

### 1978 AMC "Spirit" with 42K Original Miles!

Actually, \$2,500 may make the seller pretty excited, this car obviously needs a bit of work. They say that this is an actual barn find but there really isn't a lot of information in the listing. They do have a good amount of good photos, and a very big thumbs up to them for that.

Being in sunny California it has helped to preserve the metal on this car, but as you can see, the **plastic, rubber, and paint** has been hammered by that beautiful sun. Those plastic bumper filler pieces will not be easy to find. No, sir, they will not be easy... bbbbbb.. scary. But, maybe a plastic/rubber 3D printer could make.. no, that technology probably isn't quite there yet. The bumper ends could be made by a 3D printer for sure, I have an odd piece for a rare scooter being worked over and I never thought that it would be possible to make it, but 3D printing has become a regular part of a restorer's tool kit.

**American Motors**

There are no engine photos and they say that it's a "very rare engine (122 cu in (2.0 L) Audi/VW EA827 I4)" which would have had around 80 hp. This car looks like it's a 4-speed so that's always a bonus! They say that it "starts right up and runs well." The interior looks good for a black car with a black interior in one of the hottest areas of the country. I guess being in a "barn" may have helped a bit. The seats look perfect both **front** and **rear**. Any thoughts on a reasonable offer for this good looking 4-speed Spirit?
